

Managed Services

**Secure 24/7/365
monitoring that doesn't
sleep....**

So you Can...

About Us...

Founded in 1996, Friendly Computer Services is a Florida based company providing cost effective and reliable networks to small and mid-sized businesses, schools, and local governments. As a Microsoft Gold Certified Partner and Small Business Specialist our highly trained staff of professionals offers outstanding customer service and managed networks that your company can depend on. Current clients include professional service firms, retailers, manufacturers, local government agencies, and academic institutions.

As one of the top 100 Managed Service Providers in the nation, Friendly Computer Services can support your business as if you had a personal technician full time on your staff without all the additional cost personnel can add to your annual budget. With a staff possessing more than a combined 100 plus years of experience, we support all your hardware, software, and network needs.

All of our clients experience a 99% uptime on their networks. So whether you have 2 or 2000 computers, Friendly Computer Services offers the expertise to ensure your computers work for you.

NETWORKS THAT WORK

24/7/365

Never Pay Another Hourly Service Fee!

The WHAT IF'S Can Save a Companies Productivity

What if your network technician was PRO-Active and not REACTIVE?

What if your network technician could **remotely monitor** all of the computers in your network?

What if you could eliminate waiting for a technician to come to fix your computer network?

What if the **hourly service call charges** became a thing of the past?

What if you had 99% uptime on your computer network?

What if you could be notified before your server was running low on memory?

What if you had the equivalent of a technician **24/7/365**, with no time off for sick days, holidays or vacations?

What if you had a dedicated technician assigned to your account?

What if your dedicated technician could visit you every month on a scheduled basis at no additional charge?

What if it all came with a money back guarantee?

Friendly Computer Services can do all this and more...
